- (iii) **Expenses.** Notwithstanding Paragraph 8, the Transferor shall be responsible for, and shall reimburse and pay all reasonable transfer and other taxes and other costs involved in the transfer of Eligible Credit Support and/or Equivalent Credit Support (including but not limited to any costs, fees and expenses associated with any account into which such Eligible Credit Support is transferred by the Transferor) either from the Transferor to the Transferee or from the Transferee to the Transferor pursuant to this Annex.

**"Moody's Credit Support Amount"** means, for any Valuation Date:

- (A) where the Moody's Threshold with respect to Party A is infinity, the Credit Support Amount; and

  - (1) zero; and
  - (2) the sum of (x) the Transferee's Exposure and (y) the aggregate of the Moody's Additional Amounts in respect of such Valuation Date for all Transactions (other than the Transaction constituted by this Annex).

**"Transaction Cross Currency DV01"** means, with respect to a Transaction and any date of determination, the greater of (i) the estimated absolute change in the Base Currency Equivalent of the mid-market value with respect to such Transaction that would result from a one basis point change in the relevant swap curve (denominated in the currency of Party A's payment obligations under such Transaction) on such date and (ii) the estimated absolute change in the Base Currency Equivalent of the mid-market value with respect to such Transaction that would result from a one basis point change in the relevant swap curve (denominated in the currency of Party B's payment obligations under such Transaction) on such date, in each case as determined by the Valuation Agent in good faith and in a commercially reasonable manner in accordance with the relevant methodology customarily used by the Valuation Agent.

Note: The VCs for FX options are reduced by 30%, e.g. for an FX option with a WAL of up to one year the rate would be 11.75% * 70% = 8.2%							
Source: Fitch							

"WAL" means the weighted average life of the Transaction (in years, rounded upwards to the next integer) as determined by the Valuation Agent based on a prepayment assumption capped at the lowest of: (i) 5% a year, (ii) the portfolio-specific prepayment rate reported over the previous 6 months, and (iii) the counterparty's internal prepayment rate assumption. Alternatively, a zero prepayment assumption may be applied.
